ÁLVARO RODRÍGUEZ MOLINA

SOFTWARE ENGINEER | FULL STACK, INTEGRATION & AUTOMATION

+3530858187983 alvrodmol@gmail.com

PROFESSIONAL EXPERIENCE

Fusion Analyst | Full Stack & Automation

Synovia Digital

01/2026 - Present Ireland

- Built and supported full-stack solutions involving frontend, backend, APIs, authentication, and cloud-connected services.
- Worked with Azure-based tools and services to deliver scalable integration and automation solutions.
- Implemented authentication flows across web applications, including Microsoft-based and third-party login providers.
- Developed API-driven workflows for real-time data extraction, processing, and database updates.
- Automated operational and client-facing processes to improve efficiency, usability, and delivery speed.
- Helped define project setup, repository structure, infrastructure decisions, and development best practices.
- Supported maintainable project delivery through technical coordination, documentation, and knowledge transfer.

IT Business Consultant SAP Analyst

Primeline Group

05/2025 - 01/2026 Ashbourne, Ireland

- SAP S/4HANA EWM support and warehouse process management
- Trained 3 end-users on SAP S/4 HANA, boosting adoption rates
- Optimized SAP S/4 HANA workflows, improving process efficiency.

Multimodal AI Training Specialist

Outlier (Remote, Freelance)

12/2025 - 02/2026 Ashbourne, Ireland

- Created video, image, audio, and text content to simulate AI-generated outputs and provide human feedback for training multimodal AI models.

System Admin

Primeline Group

11/2024 - 05/2025 Ashbourne, Ireland

- Managed order distribution, system updates, and shipment coordination to ensure timely deliveries and KPI. (Gaina Software)
- Conducted data analysis and reporting using Excel.
- Optimized workflows and team performance through effective communication on Microsoft Teams.

Junior Programmer Intern

Getronics

04/2024 - 06/2024 Seville, Spain

- Performed Java testing with Spring Boot, JUnit, and Mockito for Notific@, a government notification system.
- Identified and resolved software bugs, improving product stability.
- Implemented frontend and backend improvements to increase application stability and scalability.

RESUME

Software Engineer working across full-stack development, SAP S/4HANA EWM, automation and AI. I enjoy being involved in both the technical and business sides of a project, from understanding an operational problem to building the software that solves it. I regularly work with sales and operations teams, turning their requirements into tools they can actually use. I have developed AI agents and automation tools for troubleshooting, data processing, analysis and reporting, as well as APIs, authentication flows and Azure-based applications. I also have experience in multimodal AI training, system administration and warehouse operations.

Energy Advisor & Business Consultant

Stratton Global

01/2023 - 04/2024 Seville, Spain

- Managed multiple clients using various energy company CRMs.
- Helped over 10 major businesses reduce energy costs by adjusting rates through comparative and efficiency studies, ensuring fair payment.
- Mentored team members eager to learn sales methodologies.
- Analyzed market trends to advise clients on sustainable energy solutions.

Store Clerk & Digital Manager

El Tortillón

07/2019 - 09/2022 Seville, Spain

- Managed social media and created digital content.
- I managed social media and created digital content, increasing interaction on social platforms by 25% over 6 months.

EDUCATION

Specialist in Web Application Development

I.E.S. ALIXAR

2022 - 2024 Seville, Spain

- During this program, I developed advanced skills in full-stack web development, learning how to design, build, and deploy modern applications from both frontend and backend perspectives.
- I gained a solid understanding of software architecture, design patterns, and database management, as well as practical experience working with APIs, cloud environments, and containerization tools.
- Additionally, during this period, I dedicated a significant amount of time to documenting projects and tasks across multiple areas of web development, including client-side and server-side development, databases, development environments, and programming.
- This specialization allowed me to strengthen my problem-solving mindset and adaptability, preparing me to work in real-world development environments with efficiency and precision.

Degree in Computer Engineering

University of Seville (ETSSII)

2019 - 2024 Seville, Spain

- Throughout this degree, I gained a deep understanding of both the theoretical and practical foundations of computing.
- I studied a Wide range of subjects covering mathematics, electronics, and programming, which allowed me to develop strong analytical and problem-solving skills.
- I learned to work with binary systems, logic gates, and digital and integrated circuits, as well as to design and analyze algorithms efficiently.
- My education also provided a solid background in applied mathematics, including algebra, calculus, and statistics essential for understanding complex data structures, computational models and system design.

Technological Bachelor´s

School Inmaculado Corazón de María Portaceli

2017 - 2019 Seville, Spain

SKILLS

Programming Languages:
Python, Java, JavaScript, TypeScript ,SQL, HTML, CSS

Frameworks / Libraries:
Spring Boot, Spring Security, JUnit, Mockito, Angular, React, Django, Node.js, Express, Hibernate, Webpack, Bootstrap, Tailwind CSS, Pandas

Cloud, APIs & Deployment:
Azure, Azure SQL, AWS, Google Cloud Platform, REST APIs, API Integration, Swagger, Docker, Kubernetes, Firebase, Render

Authentication & Security:
OAuth2, JWT, Authentication Flows, HTTPS, SSL, CORS, API Security, Data Encryption, Cybersecurity

Databases & Data:
PostgreSQL, MySQL, MariaDB, MongoDB, Power BI, Excel, Data Preprocessing, Real-Time Data Workflows

Development Tools:
GitHub, GitLab, Bitbucket, Jenkins, Postman, Jira, Eclipse, VS Code, IntelliJ IDEA, PyCharm, NPM, Gradle, WebStorm

Applications & Services:
SAP S/4HANA, CRM, Microsoft Office, Outlook, ServiceNow, SharePoint

Modeling & Documentation:
UML, ERD, Flowcharts, Sequence Diagrams, Class Diagrams, Use Case Diagrams, Activity Diagrams, Architecture Design, Wireframes, Prototyping, System Analysis, Technical Documentation

Methodologies:
Agile, Scrum, CI/CD, DevOps

AI & Multimodal Training:
Generative AI, Multimodal AI, Human-in-the-Loop, Image / Video / Audio Annotation, Text-to-Image, Text-to-Video, Speech Data Processing, Computer Vision, Visual Pattern Extraction, Prompt Alignment, Model Optimization, AI Quality Control, AI Content Simulation

VOLUNTEERING

Community service and support

Blanca Paloma School

2021 Los Pajaritos, Seville, Spain

- Charity market and collaboration with the food bank
- Community service and support
